### HOME AND SCHOOL COMMUNICATION AND SUPPORT

---

**Teacher E-Mail Addresses:** All teachers at this school have been issued e-mail addresses.

---

The following narrative about how this school promotes and supports parental involvement was submitted by the school.

Litchfield Middle School and High use a variety of methods to involve parents in their children's education. An Open House Night, as well as other "meet and greet" activities, is scheduled within the first three weeks to allow faculty to present the curricula, the syllabi, and course expectations. PowerSchool, our student data management software, allows parents 24 hour access to their child's grades and teacher comments. Our Global Connect school communication system allows us to disseminate by telephone a prerecorded message to all families in as little as 10 minutes. Our Student Teacher Parent Council holds monthly meetings and organizes Parent Academies on topics of interest, such as teaching techniques, curriculum ideas, and other trends in education. Parent input during Planning and Placement Team meetings is highly valued and carefully weighed. Finally, a weekly Student Support Team meets to discuss students exhibiting academic or social behaviors of concern and designs action plans to appropriately intervene.

### EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

---

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

Litchfield Middle School and High School strive to provide opportunities to bring students in direct contact with individuals from different racial, ethnic, and economic backgrounds. Now in its 16th year, our Project Poetry Live! program involves 7th grade students from Goshen, Litchfield, Morris, Thomaston, Torrington, Waterbury, Warren, Watertown and Winchester in an annual celebration of diversity. Students work together in small groups to produce works of art, a dance program, a set design panel, and an anthology of poems. Our middle school organizes a Holocaust remembrance project that includes a presentation and discussion with a Holocaust survivor. Our high school students travel to Europe on school-sponsored trips and take advantage of online courses such as Mandarin Chinese to broaden their language experience. The Interact Club, a high school branch of the local Rotary chapter, is involved in many community support activities. As a small school district in Northwestern Connecticut, Litchfield Middle School and High School continue to make a conscientious effort to enhance student awareness and understanding of all types of diversity.

**SCHOOL IMPROVEMENT PLANS AND ACTIVITIES**

---

The following narratives was submitted by this school.

Our special education program has been modified to better educate all students in the least restrictive environment. Our 7th and 8th grade schedule now accommodates four extended academic periods that allow for interdisciplinary activities and differentiated instruction. An Academic Enrichment period managed by classroom teachers provides for students with specific organization needs and academic modifications to receive daily extra-help from their content teachers. This year we will complete our NEASC 5-year follow-up report, which will begin with a review of our mission and expectations and their alignment to curriculum, instruction and assessment. Data analysis completed by our Director of Curriculum and Instruction indicates that more work can be done to improve goal performance on CMT and CAPT. As a result, one building goal this year is to enhance student learning through effective and differentiated instruction.

---

**SUPPLEMENTAL SCHOOL INFORMATION**

---

The space below was optionally used by this school to describe aspects of the school not presented elsewhere in the profile.

The 2008-2009 high school instructional schedule allows for four 80-minute instructional periods per day evenly divided by a lunch/activity period. The decision to adjust our daily schedule resulted from the recognition that students learn best through performance-based, authentic assessments, particularly in science laboratories, which have not existed for several years. Our activity period in the middle of the day allows for students to participate in a variety of extracurricular activities without conflicts with athletic or other after-school schedules. We have reduced the number of academic levels from five to three (Advanced Placement, Honors and Academic), each of which is now distinctly weighted. We now have an Independent Study policy that allows students to further pursue academic opportunities that clearly align with our program of studies and expectations for student learning.
